

BEADS & DOTS

THE MONTHLY NEWSLETTER PRODUCED BY ADSOL UK

Welcome to BEADS & DOTS; the monthly newsletter from the team at ADSOL UK! **Each month**, we will keep you up to date with the latest news and information related to ADSOL UK, our leading Meler hot melt equipment plus hot glue machinery in general. Whether you use Meler equipment or other, we can support you. Also watch out for our **hot alerts**; if we have bit-size chunks of information that we believe will help and inform you we will get it over to you.

In this newsletter we will tell you about the huge range of different applications for hot melt and keep you up to date with our latest news.

Best wishes, from the ADSOL Team.

How is Hot Melt used in your industry?

Packaging

Hot melt is used in the packaging industry, for an effective way of gluing boxes together as well as labelling and wrapping.

Automotive

Hot melt is used in the automotive industry, often for gluing upholstery and insulation to the vehicles and for manufacturing components.

Textiles

Hot melt can also work in a more delicate setting. It can be used in clothing production as well as mattresses and shoes.

Product Assembly

Hot melt is used in a wide range of product assembly businesses. It can be used in electronics as well as cosmetics and tools.

Construction

Hot melt is used in the construction industry. It can be used for installing insulation, doors, security applications and many more things.

Furniture

Hot melt is used in several ways in the furniture industry. It can be used for gluing upholstery as well as floors, panels and more.

Healthcare

Hot melt is even used in healthcare products such as nappies and hygiene products.

Graphic Arts

Hot melt is the graphic arts industry for things such as bookbinding and labels.

If you would like to know more about how Hot Melt can help your business or how it can be effectively used in your industry, don't hesitate to **give us a call** and have a nice chat with one of our helpful engineers!
