

BEADS & DOTS

THE MONTHLY NEWSLETTER PRODUCED BY ADSOL UK

Welcome to the August 2016 BEADS & DOTS; the monthly newsletter from the team at ADSOL UK. Each month, we will keep you up to date with the latest news and information related to ADSOL UK, ***The Hot Glue Machinery Experts***, and our leading Meler hot melt equipment plus hot glue machinery in general.

Whether you use Meler equipment or other (such as **Nordson**), we can support you and save you money. Also watch out for our hot alerts; if we have bite-size chunks of information that we believe will help and inform you we will get it over to you.

Best wishes, from the ADSOL Team.

SAVE MONEY IN THE LONG RUN: A SERVICE CONTRACT WITH ADSOL UK

A question that we always ask is: *"How often do you service your glue tanks?"*. Occasionally, and worryingly, we come into contact with new customers who answer with *"Never"*.

While we understand that situations differ from application to application and from business to business, a preventative maintenance contract from ADSOL UK could save you thousands of pounds in the long run.

We'd say about 8/10 of our customers fully understand the importance of regular maintenance as a way to extend the life of their glue systems and prevent expensive downtime, and these are the customers that take out a service contract with us.

Our engineers aren't just experts when it comes to Meler equipment; they spend a lot of their time servicing our customers pre-existing Nordson systems among other brands. We are a genuine 24/7 company and so our servicing can be carried out at any time to suit your production cycles.

For a no obligation quote please contact our Service Manager Chris; chris.bradshaw@adsoluk.com - 0845 309 6522

ADSOL & Meler deliver **bespoke applicator** to UK Multi-national

A leading insulation manufacturer came to us with a special request recently, to design and build a bespoke hot glue applicator that could fit into their production line.

We were happy to take on the project and in collaboration with the Meler R&D department we produced a custom automatic multi-module swirl applicator.

Introducing the **new members** of the ADSOL team!

Meet Ste and Matt, the 2 new additions to our engineering team. Matt has joined us straight out of college and Ste was previously an avionics technician for the RAF!

The **right nozzles** for the job

Technically speaking, there are **100s of different shapes, sizes and functions** when it comes to glue nozzles. Picking the right one can be daunting, however our engineers are experts in their field and can help you pick out the ideal nozzles.

If you think the nozzles you have aren't working quite the way you need them to, or are simply looking for a better fit, give us a call and we will help you create the perfect system.
