HOT-MELT APPLICATION SUPPORT & MAINTENANCE

Happy New Year Everyone!

We hope you had a fantastic Christmas & New Year, and we wish you all the very best for 2017.

We had a truly excellent 2016; working with companies all over the UK and Ireland. We had another year of considerable and sustained growth, as more and more businesses got on board with us and utilised us to support their pre-existing hot glue systems as well as trying our range of Meler equipment.

We had a few call outs over the Christmas period from customers depending on our truly 24/7 service! With downtime often being eye-wateringly expensive our 24/7 Technical Support and servicing is a lifesaver for some companies.

New Year's Resolution:

Get better support & save money on Hot Glue Equipment! ✓

In the coming months, we aim to be meeting more and more companies that don't currently work with us, so we can discuss the benefits we provide to our customers and how to get the most out of their hot melt systems plus save money.

If you aren't already taking advantage of our **market-leading, Award-Winning equipment and Award-winning 24/7 Technical Support or price competitive spare parts**, then contact us right away.

2017 looks set to be a year of big changes all over the world; perhaps one of these changes could be replacing your old hot melt tank with a **brand new Meler equipment**, taking out a **bespoke service agreement** on your existing equipment or saving money (on average over 30%) on our **new, fully guaranteed compatible parts**.

Happy New Year!

Best Wishes, ADSOL UK
