

BEADS & DOTS

THE MONTHLY NEWSLETTER PRODUCED BY ADSOL UK

Welcome to the July 2017 BEADS & DOTS; the monthly newsletter from the team here at ADSOL UK. Each month, we will keep you up to date with the latest news from ADSOL UK, *The hot glue machinery experts and providers of Meler's leading hot melt equipment to the UK & Ireland.*

Whether you use Meler equipment or other (*such as Nordson*), we can support you fully and save you money. Don't forget, we support our customers 24/7 with technical assistance.

Best Wishes, from the ADSOL Team.

ALL OF OUR TANKS COME WITH A
**24 MONTH
GUARANTEE**

A BIG THANKS TO YOU

A big thank you to our customers who have bought a new Meler tank or B4 system from us in the month of June. Our B4 Systems are ideal for low volume manual applications, while our Micron series of tanks (with either a piston pump or gear pump) are suitable for most applications.

June has proved to be another record month for sales; with mattress manufacturers proving to be the market with the most system sales for the month followed closely by box and packaging manufacturers. So thanks to all those customers for choosing us and rest assured we will continue to support you.

First place at the PPMA / Ultimate Car Control driving event!

Recently our sales and service teams went on a 1 day driving course provided by Ultimate Car Control and the PPMA to make sure they are delivering our 24/7 service to the UK & Ireland safely and on time.

Our very own Matt Johnson came first on points out of over 30 people and is dubbed the PPMA "Driver of the year"!

The Award-Winning Micron Series

Since we work with market leading Meler equipment so much it's easy for us to forget just how good the Micron Series of glue tanks are. With their superior pump performance, power efficiency (60% more energy efficient) and cost effectiveness they beat out the other machines in their class with ease.

Did we mention they won a Red Dot Award for product design?

Don't forget we also work with Nordson equipment!

We might be Meler's partner in the UK & Ireland but that doesn't limit our scope. Our engineers are trained to work with other manufacturers' hot melt equipment (*including Nordson*), so that we can help you no matter what you use. We supply the necessary compatible parts to fit other OEM systems.
